

We want safe resettlement for those in PNG and Nauru

On the 19th July 2013 it was announced that no individual who arrived by boat to Australia seeking asylum would be resettled in Australia. **#6yearstoolong**

Since then:

- 3127 people have been sent to Manus or Nauru since 19.07.2013
- Approximately 800 people are left living in limbo in PNG and Nauru
- Over 1250 people have been transferred to Australia for medical reasons
- At least 508 have been resettled in the US, and some others in Europe or Asia — many refugees who Australia flew over there are still waiting to be resettled.

Ongoing tragic consequences include:

- 2 recent self-immolations
- 12 deaths
